Technical Specifications

Wire Stitching Heads

HARRISON

BOSTON STITCHING HEAD designed to mount on a Harrison Boston Multiple Wire Stitcher, will adapt to most other Stitching units.

STANLEY BOSTITCH

- No 2 = 2001 to be found on Single headed stitchers, using round drive and bolted on.
- No 23 = 2301 to be found on Single headed Bench stitchers, round drive and bolted on.
- No 26 = 2601 to be found on Gang or Multi stitchers, using flat drives and clamped on.
- A = AHD refers to one piece swivel holder. (old style).
- D = DHD refers to a three piece swivel holder. (new style).
- CD = EHD as DHD using a special adjusting slide and thick clincher assemblies.
- No 15 = 15001 a larger stitching head found on Bostitch box stitchers.
- No 18 = 18001 as 15001 but found on Gang stitchers including the CHEM & KUGLER cheque book stitchers.

ACME CHAMPION

- CAAA-2001 to be found on Single headed stitchers using round drive and screwed on.
- CAAA-2001-J special to the CHEM & ORDINAGRAPH stitchers, flat drive and screwed on.

- CTTT-2601-C to be found on Gang or Multi stitchers, flat drive and clamped on.
- CTTT-2601-R2 to be found on Camco Auto Stitchers, using round drive and bolted on.
- CTTT-2601-R3 to be found on Camco/Linotype Trimstitch, flat drive and clamped on.

All Acme Champion Stitching Heads have a one piece swivel holder.

Acme Champion Stitching Heads can also be supplied for LOOP STITCHING the above references would change as follows.

- CAAA-2001 = CAAA-2001-K
CAAA-2001-J = CAAA-2001-L
CTTT-2601-C = CTTT-2601-W2
CTTT-2601-R2 = CTTT-2601-A3
CTTT-2601-R3 = CTTT-2601-R7

We also stock variations from the standard (1/2") crown heads, which use .50mm (25 gauge) round wire. These include the 5/16" crown, 3/8" crown and 5/8" crown. Where a stitching head is required to stitch to 1/4" in thickness we can convert to flat wire stitching using 21 x 25 narrow flat wire.

In addition to the standard 'Harrison Boston' the 'Bostitch 2601DHD' and the 'Acme Champion CAAA-2001 & CTTT-2601' we stock stitching heads which will mount on the following machines.

CHEM & ORDINAGRAPH (CAAA-2001-J), CHEM & KUGLER (18001DHD), HARRIS (CTTT-2601-C), CAMCO (CTTT-2601-R2 & CTTT-2601-R3), C P BOURG, HOBSON, KUGLER, LINOTYPE, MACEY, ORDIBEL, XEROX, CHRISTENSEN, NECKA & BEILOMATIC, KOBRAK.
